## PROFILE INFO

I'm Wajid Korkani, a Full Stack Developer specializing in scalable web apps using Python (Django, Flask), Node.js, React.js, Tailwind CSS, and Firebase. A Computer Science student at Virtual University of Pakistan and a CS teacher at Classic Academy, I blend strong technical skills with clear communication and a passion for innovation.

Skills: React.js, JavaScript, HTML/CSS, Python, Django, Flask, Node.js, Firebase, MySQL, Flutter, Java, C/C++, Photoshop, Illustrator, Premiere

## EXPERIENCE

### TEACHING

2024 - 2026

I am a Computer Science Teacher at Classic Academy with two years of professional teaching experience. During this time, I have taught core computer science and programming concepts, helping students build a strong foundation in subjects such as programming logic, web development, and problem-solving. I focus on making complex technical topics easy to understand by using practical examples, real-world projects, and interactive teaching methods. My role has strengthened my communication skills, classroom management, and ability to adapt my teaching style to different learning levels. I am passionate about mentoring students, guiding them toward modern technologies, and preparing them for both academic success and real-world software development challenges.
